01 — WHO WE ARE

About Us

A trusted transport and logistics partner to the oil, gas and construction sectors of Abu Dhabi's Western Region since 2012.

Kharza General Transport is based in the Western Region of Abu Dhabi, UAE, with offices in Madinat Zayed and Ghayathi and operations around Ruwais — the main hub of oil production in the UAE. Since our founding in 2012 we have built a strong record across desert transport, onshore and offshore oil & gas field support, and general transportation.

Our services cover water supply, sewage collection, crane hire, flatbed trailers, skip trucks and heavy material transport, for projects both inside and outside the oil fields. We measure our success by one thing: when our quality of service meets our clients' requirements. That commitment has driven our steady growth — and it is how we will keep earning our clients' trust.

02 — WHAT DRIVES US

Mission, Vision & Approach

Our Mission

To add the greatest possible value for our clients by delivering on quality, time and cost — and by earning trust through safe, responsible conduct in every operation.

Our Vision

To keep a strong, well-run organisation, to keep growing the trust of an expanding client base, and to widen our activities into new fields of work.

Our Approach

A fully integrated service from one committed, well-equipped team. We first understand your business needs in depth, then handle each task efficiently as it comes.

WHY CLIENTS CHOOSE KHARZA

Safety first
Safe work in upstream and downstream sites.

On time
Dependable service, one call away.

Under one roof
Complete logistics from a single provider.

Cost effective
Tailor-made solutions at fair cost.

03 — SCOPE OF WORK

Transport & Oilfield Services

From oilfield desert routes to city sites, we move goods, machinery and materials safely across the UAE.

General Transportation

Reliable movement of goods, equipment and supplies for projects across the Western Region and the wider UAE.

Onshore & Offshore Oil & Gas Fields

Desert transport and field logistics supporting oil & gas operations in and around Ruwais.

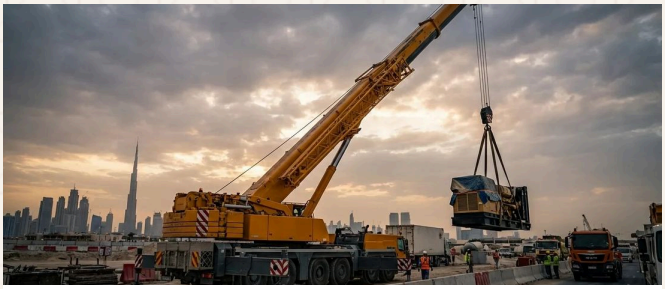

Heavy Equipment & Materials

Heavy trucks and lowbeds for machinery, assembly materials and aggregate of all sizes.

Flat Trailers

Flatbed trailers for pipes, steel, containers and oversized loads, with experienced drivers.

Crane Service

Lifting and loading support for site works, equipment placement and material handling.

Skip Trucks

Skip collection and placement for construction debris and site clean-up.

03 — SCOPE OF WORK

Water & Waste Services

Water tankers and waste vehicles serving oil field camps, project sites and communities across the region.

Sweet Water Transportation

Supply of fresh drinking water by dedicated, clean tankers to camps, sites and homes.

Non-Drinking Water

Water for construction, dust control, compaction, irrigation and industrial use.

Sewage Collection & Transport

Collection, removal and disposal of sewage water by vacuum tankers.

Waste Management

Removal and disposal of garbage and site waste, with sub-contract partners where needed.

One call.
One dedicated team.

Every service is tailor-made to the client's needs — whether it is a single tanker trip or a complete logistics package for a full project.

04 — EQUIPMENT

Our Fleet

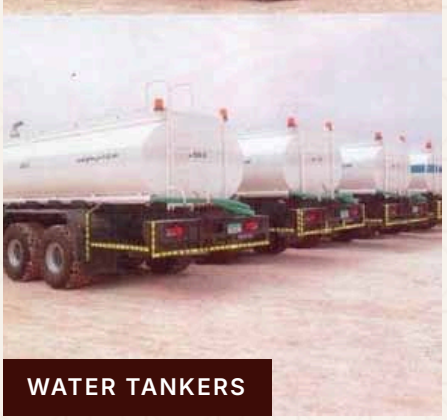

A well-maintained fleet, serviced by our own maintenance team and ready for desert and oilfield conditions.

HEAVY-HAUL PRIME MOVERS

BUILT FOR THE OILFIELD

Desert & oilfield ready
Vehicles equipped for desert routes and oil & gas field work.

Own maintenance team
Regular servicing keeps every vehicle safe and road-ready.

Trained, certified crew
Staff supported to gain external certifications for their work.

Safety first
Safe operations on every site, upstream and downstream.

05 — OUR PEOPLE

Management & Organisation

Kharza is run by a devoted team across management, execution and service departments. The company is owned and led by its Managing Director, **Saleh Mubarak Salem Jaber Al Mansoori**. Engineers, supervisors and foremen look after work sites and business development, supported by long-standing sub-contractors in construction and waste management — giving a smooth, free-flowing process from planning to project delivery.

OPERATIONS

Qualified people on every site

Our offices in Madinat Zayed and Ghayathi are run by an efficient team of qualified engineers and staff across all departments. Client project sites are managed by qualified technical staff and a skilled workforce, and we support our employees in gaining external certification whenever an operation requires it.

06 — HEALTH, SAFETY & ENVIRONMENT

Safety comes first.

As a company and as individuals, we take great pride in contributing to the communities where we live and work. We care about the environment, and our persistent efforts to improve our safe work environment continue to pay off.

01 **Safe work, measured**
Personal safety is tracked through days-away-from-work ratings in both upstream and downstream operations.

02 **Protecting the environment**
Responsible handling and disposal of sewage, waste and water, led by our Environmental Co-ordinator.

03 **Trained, certified people**
A dedicated HSE Officer and staff supported to gain external certifications for their work.

04 **Well-maintained fleet**
Our own maintenance team keeps every vehicle safe and road-ready.

QUALITY & REGISTRATION

An ADNOC registered company with certified quality management

Our success comes from a strong organisation, efficient management and clear communication between our company, our clients and our staff. The most important things we offer are service and dependability.
